DOUBLY PROVEN

Lexington Readers Can No Longer Doubt the Evidence.

This Lexington citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Mrs. D. W. Weedon, 1817 Railroad St., says: "My feet and ankles were so swollen I had to keep increasing the size of my shoes. My hands and wrists were swollen, too, and I knew my kidneys were out of order. I had headaches and dizzy spells and a nagging pain in the small of my back which kept me in a run down condition and I was so nervous I could hardly sleep. Doan's Kidney Pills cured me." (Statement given May 25, 1906.)

On September 12, 1916, Mrs. Weedon said: "I am just as strong an endorser of Doan's Kidney Pills now, as ever."

For Those Who Have Money

SHOULD the President of a Bank say to you—"Mr. Man I want you to buy a certain number of notes of the *Pittsburg Petroleum Company*, and after participating in any profits that may accrue, come to me when your notes mature and I will see that the exact amount of cash you first invested will be returned to you," would you hesitate?

Your Money Back

That is just exactly what our proposition means; you not only share in the profits but your Original Investment is returned to you.

INVESTMENT

The time to invest in an enterprise is before development is completed, for if you wait until it is paying dividends it is too late. The man who can see his opportunity and has the judgment and nerve to back it, is the man who reaps big Oil and Refinery Profits.

DEVELOPMENT

AN AGGRESSIVE AND SUCCESSFUL DEVELOPMENT CAMPAIGN IS OUR AIM; this is possible owing to our large and diversified lease holdings comprising in all about seven thousand (7,000) acres, located in Kansas, Oklahoma, and Missouri. Some are in proven, some in semi-proven and some in undeveloped territory. We believe that oil is under some of these leases. Government statistics show that from seventy-five to eighty-five per cent of the Oil and Gas wells drilled are producers. No business of to-day is producing such large returns as the OIL BUSINESS, when in the hands of men who understand it.

SAFE and SOUND

A cleaner, safer, sounder security has never been offered the investing public. Remember that it is founded upon conservative basis, that your money is safe, that in the meantime you participate in any profits that may accrue out of your investment. A few facts with safety are worth many arguments with promises.

OUR OFFER

The Pittsburg Petroleum Co., upon receipt at its office in Kansas City, Mo., of the full payment of the purchase price, in lawful money of the United States, will deliver to the payer of said sum the number of notes subscribed for, at one hundred dollars (\$100) each and a certificate of deposit in a reputable Banking institution for an amount which, with its earnings will redeem the note at its maturity. In lieu of interest on the note, the registered holder shall participate in fifty (50) per cent of the net profits accruing out of the investment made by the Company on the basis as a One Hundred Dollar (\$100.00) unit bears to the whole issue. That's fair, isn't it.

STABILITY

We know that our proposition is one of merit, founded upon conservative lines, with an aggressive management, that can and will accomplish things; with its large lease holdings; with the assurance to the investor that his money is protected and the possibility of earning splendid dividends on the invest-

ment. We therefore suggest that you decide at once upon the number of notes you wish to take and send in your remittance, for we believe the investing public will take advantage of this chance and the notes will be disposed of in a very short time. Remember the Time to Act is Now!

The notes are in denominations of \$100 and \$500. Local Representatives Wanted
